

# Double O

*By Pastor Anison Samuel*

Most verbs in the Greek language end in 'o'. Rarely does a Greek verb end in two 'o's. One 'o' means refers to the verb in action. Double 'o' means that it will be seen. In Ephesians 3:16 the word 'strengthened' is *krataioo*. In 2 Timothy 4:17 the word 'strengthened' is *endunamoo*. It conveys more than just being strengthened. It means to be shown to be strong. It will be seen on the outside and not just experienced on the inside. God will demonstrate it and make people see it.

How can power be visible? Acts 11:23 speaks of people seeing the grace of God in the move that happened in Antioch. It could not be explained with human reasoning. No one initiated the move. When Barnabas was sent as an expert in the scripture to report back on the revival he saw, he concluded that there was no human involvement. It was all God's grace. They knew there was no explanation other than God's power.

In Acts 8:17-20, even Simon the great magician was amazed to see the impossible become possible through the Holy Spirit. He saw the power come. The lame walked and blind eyes were opened. The power of the Holy Spirit was not just an idea, but it was to be seen. When there is a double 'o', people will see what the Lord has been doing. The enemy is coming but there is an immediacy to God's rescue. Your faith will be heard and seen.
